

VIKTOR SZŐKE

FRONTEND DEVELOPER

Introduction

I'm Viktor Szőke, a Frontend Engineer since 2018, specializing in Angular, TypeScript, and modern web development. I'm passionate about building scalable, user-friendly applications and leveraging AI-powered tools to improve development efficiency and code quality. I also have a strong interest in UI/UX design and emerging technologies.

Experience

2023 - Present — **HEITEC Digital**
Frontend Developer, Budapest
I work here as a frontend developer. My main tasks. My main tasks are creating and testing new components. I was involved in the sprint plannings and refinements as well.

2021 - 2023 — **SnapSoft**
Frontend Developer, Budapest
I worked here mainly as a frontend developer. My main tasks included creating, testing and communicating with the client.

2018 - 2021 — **EN-CO Software Kft.**
Frontend Developer, Budapest
I worked here as a frontend developer and as a team leader. My main tasks included creating, testing and write documentation. I also participated in mentoring students and delegating tasks.

2017 - 2017 — **Eastron Kft.**
Software Tester, Budapest
I worked here as a manual software tester.
